

ALEJANDRO MARTINEZ CARRASCO

I am a bioinformatician and deep learning enthusiast with a strong background in biotechnology and genetics

WORK EXPERIENCE

present
|
2021

GP2 Cohort Integration Working Group member

📍 Remote

- Working group⁷ to collect and harmonise clinical data from of sporadic PD cohorts from all around the world
- My role was to help collecting sample manifest from contributors as well as to perform the clinical data harmonization
- I developed an app² deployed in Google Cloud Platform to ease the sample manifest as well as the clinical data collection process

present
|
2021

GP2 Training Working Group member

📍 Remote

- Working group member³ to develop Training material and opportunities within the GP2 Network
- I was one of the two Trainee Representatives in Europe to help Trainees to get on their projects and advice

EDUCATION

2024
|
2021

PhD. in Bioinformatics

University College London

📍 London, United Kingdom

- **Thesis:** Using genomics to understand Parkinson's disease progression
- Developed and applied multiple pipelines to understand the biological impact of variants nominated in genetic studies

2020
|
2019

MSc in Bioinformatics

University of Murcia

📍 Murcia, Spain

- **Thesis:** Use of community detection algorithms to create co-expression and co-occurrence networks
- Tested the proposed pipeline over transcriptomics and genomics data sets from AMP-PD project

Last updated on 2023-11-23.

2018
|
2014

BSc in Biotechnology

University of Murcia

📍 Murcia, Spain

- **Thesis:** Review on the key role of inflammation in diabetes' disease etiology
- **Internship:** Studying the role of peritoneal macrophages in endometriosis
- **Internship:** Measuring the anti-inflammatory and antitumour activity of different drugs obtained by chemical synthesis

TEACHING EXPERIENCE

2022

Introduction to Nextflow and longgwas tool

Virtual event

📍 London, United Kingdom

- Developed the content and the presentation
- Lectured a group of GP2 Trainees on Nextflow fundamentals, how to use the main Nextflow elements, and introduced longgwas tool⁴

2022

Bioinformatic analyses in Terra platform

Universidad Nacional Autónoma de México

📍 Queretaro

- Developed content and served as teaching assistant for this two day workshop⁵
- We covered Terra platform basic concepts as well as how to perform several analyses using GP2 data
- I thought on GWAS and performing a cognitive decline PRS from GP2 Latino population data

I am passionate about education. I have found teaching bioinformatics a joy
